Hikvision DS-2DE4A225IW-DE Network IR PTZ Cameras produce images with a resolution of up to 1,920 x 1,080 pixels.

The embedded 1/2.8" progressive scan CMOS chip supports digital WDR, and the 25x optical zoom allows for greater detail to be collected over more expansive areas.

The Network IR PTZ Camera also features a wide range of smart functions, including intrusion detection, line crossing detection, face detection, and audio exception, which allow for key events and objects to be recorded for further forensic needs.

Smart tracking is included in this model and enables the camera to detect moving objects by following them within the camera's area of coverage.
