## 6.4 Apply it: identify the effects of the stereotypes used in your set texts

| Set text name | Stereotypes of marginalised groups in the set text | Potential internalising effect of stereotypes | Key moments in the text that have representational effects |
|---------------|----------------------------------------------------|-----------------------------------------------|------------------------------------------------------------|
| 1.            |                                                    |                                               |                                                            |
| 2.            |                                                    |                                               |                                                            |
| 3.            |                                                    |                                               |                                                            |
