

FLEURY

RISK MANAGEMENT

March 11, 2019

Dear Safety Group 497/491 Member:

We at Fleury Risk Management are very excited about our recent appointment as Group Manager for NYS Public Entities Safety Group 497 and NYS School Safety Group 491. Our staff includes all of the individuals previously assigned to service your NYSIF policies. Due to this unique scenario, we are able to easily transition the operation of group management with no disruption to the policyholders.

As the Group Manager, we will continue to be responsible for providing assistance to Safety Group members on their New York State Insurance Fund workers' compensation insurance policies. It is our goal to continue to provide outstanding service to Safety Group members for services which include: claims, underwriting, employee safety, payroll audits, billing, and general questions/support.

We are also evaluating how to improve and expand support services to our customers. We encourage all members to please contact our office and let us know of services you would like to see offered to support your NYSIF/Safety Group workers' compensation insurance policy. Ideas or comments can be electronically submitted to: FRM@fleuryrisk.com.

Please note below our new office address, phone, fax, and website to begin servicing your policies on **April 1, 2019**.

Fleury Risk Management
