Hi Gosia,

The guitar arrived this afternoon, I only had few time to play it but... wow, for now I cannot speak about it without superlatives! It truly plays like a dream, the neck is beyond comfortable, with a perfect action and intonation, the look is killer, incredibly realistic...

This may become soon my main work instrument , you made it just like I wanted it!

Thank you so much for your work, I don't know many builders who work with so much care and professionalism
