Kindness, Engagement and Place

The Carnegie UK Trust has recently published a survey of attitudes towards kindness. Amongst their findings, based on a survey of 1253 adults, they have asked questions about how people engage with their local community. There is some really interesting information about how people engage.

The survey finds in England, for example

- 17% of people were likely to volunteer
- 15% attend a public meeting
- 17% are likely to contact an elected representative
- 22% are likely to make a complaint
- 6% are likely to set up a community organisation

The report goes on to look at how this breaks down according to gender, race and social class, and also how England compares to Northern Ireland, Scotland and Wales. You can [read more here](#)

- Would you like to broaden your own perspective?

You do not need to be a senior manager or top leader to be a mentor. You simply need experience and know-how combined with a readiness to share.

Mentoring is all about providing support and encouragement, guiding and steering, offering a different perspective, sharing contacts, giving tips and advice, and developing together.

If you are interested in becoming a mentor or would like to understand more about it, join us for a 60 minute **'Introduction to Mentoring'** lunch and learn session and meet some like-minded people. For full information please see [flyer](#).
