YT 1100	Adjustable Mini Scraper	37	24	24	152

	<p><b>Instructions</b></p> <p>Do not use heavy pressure when deburring as this will cause the blade to dig into the material and give an uneven finish Use light and even pressure which will allow the blade and handle to work together to remove the burr and leave a smooth finish on the component</p> <p>Blades should be handled carefully as they are sharp and can cut Blades can break causing flying objects Sharp edges and flying objects can cause injury Users and bystanders should wear protective safety glasses Do not pry or bend blades Keep blades and sharp tools away from children Do not regrind blades as this will weaken the blade and cause breakage and possible injury</p> <p>All Noga products meet the strict requirements of ISO 9001 and ISO 14001</p>
