

Taper Reamers

Hand held taper reamers are suitable for deburring and finishing panel holes, they are also suitable for opening out holes to non standard diameters

Two models available offering 3 – 12mm and 10 – 25mm range

Reamer heads have straight flutes and are HSS construction.

Fluted plastic handle allows positive material cutting

Linear Code	Description	Weight g	W mm	H mm	L mm
30-700-120	Hand Taper Reamer 3 – 12mm	146	88	33	240
30-700-250	Hand Taper Reamer 10 – 25mm	317	88	33	240
