Tele Burr Page 1 of 2

Suitable for light duty deburring work where extended blade position is required

Date: 19-04-2013

Supplied with:

NG-3 Handle

N type telescopic blade holder

2 different heavy duty deburring blades suitable for work on the following materials and applications:

N1: Steel aluminium and plastics

N2: Brass and cast Iron

## Packed Weight and Dimensions

RS Code	Code	Description	Weight g	W mm	H mm	L mm
339-4342	NG 3002	Tele Burr	89	31	31	177

### Instructions

Do not use heavy pressure when deburring as this will cause the blade to dig into the material and give an uneven finish

Use light and even pressure which will allow the blade and handle to work together to remove the burr and leave a smooth finish on the component

Blades should be handled carefully as they are sharp and can cut

Blades can break causing flying objects

Sharp edges and flying objects can cause injury

Users and bystanders should wear protective safety glasses

Do not pry or bend blades

Keep blades and sharp tools away from children

Do not regrind blades as this will weaken the blade and cause breakage and possible injury

All Noga products meet the strict requirements of ISO 9001 and ISO 14001

#### NG-3 Handle

NG-3 Handle accepts all Blade Holders Ergonomic soft grip, acetyl and rubber construction Removable end cap for blade storage 125mm long x 28mm maximum diameter

#### Packed Weight and Dimensions
