DISTRICT NEWS

Shaping Spaces - A new wellbeing programme run by YMCA for 16 – 25 year olds in Bradford.

This exciting new project is particularly aimed at young people who spend a lot of time indoors and feel a lack of connection to their community. Meeting two days a week, the group will go out and enjoy time together in some of Bradford's beautiful green spaces. We will focus on strengthening a relationship with nature, each other, and ourselves and provide a space of calm for tired minds. We will also look at relevant issues and topics such as how to build positive relationships, goals for the future and life-skills. The programme has been co-designed with a steering group of young people and activities to date have included tree planting, lighting and cooking on a fire and guided mindfulness walks. We work alongside Bradford Environmental Education Service so have the opportunity to work with community groups on various conservation projects. New people can join the group at anytime over the next year with an average participation time of 4 months. Please see [leaflet](#) for more information.

If you would like to know more or would like to refer a young person please contact Rachel Deadman – rachel.deadman@bradfordymca.org.uk

Supported by Co-op Foundation and government through the Building Connections Fund Youth strand.

Losing mental health services when they are needed most

Vital (formerly Bradford & Airedale Mental Health Advocacy Group) have provided user led mental health befriending for almost 20 years. Unfortunately Vital have been unable to secure funding to support the much needed befriending project and will be shutting the doors at the start of next month. Having trained over 200 befrienders, many having personal experience of mental ill health, to provide peer led social support through the befriending project this means that a valuable training and volunteering opportunity will also no longer be available. We would like to thank volunteers and staff both past and present for their valuable work in this project.

Additionally Vital are also closing the Link Project which has acted to ensure mental health service users have a voice within planning and delivery of mental health services for over almost 20 years. The Link Project worked across all areas of health, education and social care and helped to shape the Mental Health Framework for Bradford & District.

At Vital we are extremely saddened to no longer be able to provide these projects. If people are interested to find out more about Vital, our work and how we may be able to help you within one of our other projects please have a look at our website, or follow us on social media.
