

2019 Proposed Assessment Rates

The commission determines assessment rates based on the research to be funded, administrative costs and any carryover or deficit from prior years. Oregon statute limits the maximum assessment to 1/2 of 1 percent (0.5%) of the average price paid to growers during the past three years for each commodity. All of the figures below are based on net tonnage except corn, which is calculated on a gross tonnage basis.

	2019 Proposed	2018 Actual	Maximum Allowed
Beans	\$1.067	\$0.942	\$1.126
Beets	0.000	0.000	no research
Broccoli	1.965	2.489	2.767
Carrots	0.000	0.000	no research
Cauliflower	1.768	1.830	2.093
Sweet Corn	0.291	0.233	0.485

Please contact the Commission if you have questions about how the assessment rates are determined.
