The Whole Child  
Learning Company™

### WOW LEGO® Engineering

- Students begin investigating and gaining a fundamental understanding of design engineering, simple machines, structures and mechanisms.
- Activities cover subjects such as: forces, motion, energy, measuring and stability.
- Communication skills including: collaboration, problem-solving and ability to work in teams to accomplish objectives.
- Weekly summaries emailed to parents describing key concepts and projects built.

**Enrolling Now at Spreckels!**
