

KIDS SOAR!

Aviation Enrichment Program

This afterschool enrichment program is a 10-week session aimed at teaching 3rd-5th graders all about Aviation. Each session has hands-on activities that teach aerodynamics, avionics, meteorology, flight physiology, navigation, and more. Through this program not only will your child learn about what it takes to be a pilot but they will also learn physics, math, and science.

**September 12th-
November 14th**

**Thursdays
3:30-4:30**

10 Weeks

\$120
