

Neighbour Helping Neighbour

On September 12, two Margaret Ave. neighbours – Bob DeBergh (left) and Laurence Bauhaus (right) – were spotted working together, side-by-side, painting the one neighbour's fence. A third neighbour, who submitted the photos, commented that it was good to see neighbours in action, helping one another out. The gentlemen did acknowledge, however, that they won't likely get hired as a painting crew.

“Why do I hear but not understand?”

If you struggle to understand, you're not alone, in fact 47% of Canadians over the age of 60 have hearing loss. Your hearing difficulties could be caused by damaged hearing hair cells inside your inner ear (cochlea). When damage occurs in the high-frequency areas of the cochlea (where consonants are heard), speech may sound garbled and comprehension may become difficult. The right hearing aid could help you improve your comprehension.
