**Notes to the statement of comprehensive income****(i) Revenue and profitability**

Revenue for the current quarter ("2Q2017") of S\$21.4 million was 6.1% higher than that in the corresponding prior quarter ("2Q2016") with higher volume of project work completed during the current period under review.

Cost of sales for 2Q2017 increased in tandem with the higher revenue and higher direct operating cost.

Gross profit margin achieved for the current 6-month ("6-MTH 2017") is comparable with the gross profit margin achieved in the previous corresponding period ("6-MTH 2016").

Profit before taxation increased for 2Q2017 to S\$609,000 as compared to S\$129,000 recorded in the corresponding prior quarter. As a result, the profit before tax for 6-MTH 2017 of S\$0.7 million was higher than the amount of S\$0.5 million recorded in 6-MTH 2016. The improvement in profit before taxation is attributed to higher revenue, increase in other income and lower expenses.

**(ii) Other income**

Other income in 2Q2107 was higher than 2Q2016. This was attributed mainly to the receipts of Employment Credits from the Ministry of Manpower, Wage Credit Scheme payout from IRAS and proceeds from the sale of scrap materials.

However, other income for 6-MTH 2017 was lower than 6-MTH 2016 due to the inclusion of a Capability Development Grant of S\$240K from Spring Singapore in 6-MTH 2016.

(iii) Administrative expenses

Administrative expenses for 6-MTH 2017 were lower as compared the prior corresponding period as the prior period included expenses incurred for the upgrading and maintenance of the information system.

(iv) Other expenses

Other expenses recorded a net loss arising from foreign exchange transactions.

(v) Finance income and expense

The Group recorded a lower finance income due to lower interest income from deposits.

Finance expense for 2Q2017 included hire purchase interests on new hire purchase financing taken up for new motor vehicles. Finance expense for 2Q2016 referred to the interest expense on the instalments for operating equipment acquired in 2012. These hire purchase instalments were fully paid in November 2016.

(vi) Income tax (expense) / credit

The Group recorded a tax expense of S\$52K for the 6-MTH 2017 as compared against a credit of S\$124K for the 6-MTH 2016.

The tax expense for the current period arose mainly from the provision made on the profit for the period. The effective tax rate is lower than the statutory tax rate after accounting for tax savings from available incentives, including those under the PIC scheme.

Prior year's tax credit of S\$124K arose mainly from a writeback of deferred tax liability of S\$140K offset by a current tax provision of S\$25K.

***Notes to statements of financial position***

The decrease was mainly due to depreciation expense of S\$1.9 million offset by the acquisition of operating assets of S\$1.0 million to upgrade and enhance the Group's operational capabilities.

(ii) Intangible Asset

The decrease was due to the amortisation of the exclusive licencing rights for the provision of specialised coating services and methodology in Singapore and Malaysia.

(iii) Inventories and contract work-in-progress

The increase was mainly due to higher volume of contract work-in-progress.

(iv) Loans and borrowings

(v) Trade and other payables

The increase was due to higher volume of direct operating expenses.

(vi) Excess of progress billings over contract work-in-progress

(vii) Deferred tax liabilities and Current tax payable

The deferred tax liabilities were mainly due to the recognition of the temporary timing differences arising from the general provisions and claim on capital allowances on qualifying assets.

The increase in current tax payable was due to the provision made for the period offset by the payment made on tax due..

(viii) Equity

Total equity of the Group decreased from S\$58.4 million as at 31 December 2016 to S\$58.1 million as at 30 June 2017. The decrease was mainly attributed to the payment of dividend of S\$0.9 million in respect of FYT2016 offsetting the increase in revenue reserve of S\$0.6 million which arose from profit generated by the Group and the increase in share capital from the issue of new ordinary shares at the exercise price of one cent each pursuant to the conversion of the warrants.

During the current quarter, a total of 1,966,600 warrants have been exercised and the proceeds received were credited to share capital accordingly.

***Notes to cash flow statement***

For the 6-MTH period, the net operating cash inflow of S\$1.8 million arose mainly from the profit from operations.

The Group's cash balance as at 30 June 2017 was S\$18.3 million, an increase of S\$0.1 million from S\$18.2 million as at 31 December 2016. This is after taking into consideration cash outlay of S\$1.0 million invested to acquire operating assets and the payment of dividend of S\$0.9 million in respect of the previous financial year.
