120 CAPSULES

UPC # 00479

Not only do we make the
supplements! We make
the supplements Better.

WHAT IS CAPE ALOE?

Stomach and intestinal problems can be painful, particularly if you suffer from upset stomach, gastro esophageal reflux disorder (GERD) or constipation. If you have GERD, the valve that separates your esophagus from your stomach doesn't close completely, allowing stomach acid to flow back into your esophagus. This can cause a burning pain in the chest and throat, an unexplained bad taste in your mouth, and trouble swallowing. Constipation occurs when it's hard to pass stools, or when bowel movements are more infrequent than usual; it can cause abdominal discomfort and bloating.

Many remedies for heart burn and constipation have uncomfortable side effects. Meta-Labs's Cape Aloe is a natural supplement that provides aloe harvested from the leaves of the cape aloe plant in Kenya. The aloe contained in these capsules may help alleviate gastrointestinal problems and strengthen your immune system. Cape aloe which soothes the stomach while working to reduce indigestion and heartburn. It acts as a natural laxative, decreasing the amount of time it takes for waste to move through your colon. This supplement also contains antioxidants that may prevent damage to your cells that may be caused by free radicals; they can also help your body fight off infections and diseases.

The health benefits of slippery elm are rooted mainly in its soothing properties. It is thus effectively used as a mucilaginous herb internally to coat and soothe mucous membranes while also absorbing toxins which can cause intestinal imbalances. Slippery elm is an effective remedy for duodenal ulcers, gastritis, diarrhea, colitis, and any other gastrointestinal issues.

Each bottle of Cape Aloe by Meta-Labs contains 120 capsules, which can last for up to three months, depending on your dosage.
