BRAZILIAN BRONZE

CLEAVAGE SCULPT CREAM

8 oz Tottle

UPC # 33008

WHAT IS BRAZILIAN BRONZE?

Brazilian Bronze Cleavage Sculpt Cream will firm up your bust safely and naturally, this product is clearly an alternative to breast implant surgery.

- Helps regulate female hormones and glands
- No adverse side effects
- Reduces PMS symptoms and female reproductive problems

Cleavage Sculpt Cream is a revolutionary breakthrough for breast development. When you want a fuller, more beautiful bust line, hormone balancing is the very first step that needs to be addressed. This topical cream is a unique blend of herbs traditionally known for their ability to naturally balance female hormones and promote breast size and firmness. With Cleavage Sculpt Cream you can gain these results without harmful drugs or surgery. Many women do not know that hormone imbalances can lead to poor breast development, as well as, problems such as sagging and shrinking breasts with age or pregnancy. And as users report, Cleavage Sculpt Cream provides safe, visible, and extraordinary results with no adverse side effects!

Application: Apply Cleavage Sculpt Cream directly to the breasts twice daily. The amount of cream to use will depend on personal desired effect. Simply Cleavage Sculpt Cream for 3 to 6 months or longer to achieve desired results. Women have reported 1 to 2 cup size increase over a 3-month period. Clinical studies on herbal breast enlargement formulas have shown an 89% success rate when used for a 3-month period, however, it is recommended that a 6 – 9-month program for maximum benefit.

Indications: Some women may feel temporary soreness in the breasts similar to original breast development (i.e., growing pains). This will subside within a very short time. Women on birth control can safely use Cleavage Sculpt Cream. Pregnant or nursing women SHOULD NOT use Cleavage Sculpt Cream under any circumstances. Clinical Studies/Preliminary medical studies suggest that this formula is effective based on the studies conducted with over 178 patients over a two-year period. These studies included examining each patient's medical history and bio-chemistry. Claims of breast enlargement of one half inch in 45 days has been substantiated. In several other cases, enlargement of 3 inches in a 9-month period were documented.

Active Ingredients: Sabal, Damiana, Dong Quai, Blessed Thistle, Dandelion Root, Oat Bran, Wild Mexican Yam, Mother Wart, Methyl Nicotinate, Grape Fruit Extract.

Brazilian Bronze Bunda Sculpt Cream was designed to firm up the sagging buttocks muscles. This is accomplished by utilizing natural herbs that tighten the skin on the outside and increase the blood flow and activities in the muscles while the polypeptides breakdown the fatty build up that causes sagging. You will see significant results in 4 to 6 weeks.

Directions: apply twice a day by massaging the cream upward starting at the base of buttocks. Contract the area muscles as you apply the cream to create faster absorption.

Ingredients: Distilled water, Polysorbate 80, Cetyl Alcohol, Emulse 165, Safflower Oil, Phenoxyethanol, Vitamin E, Vitamin A Palmitate, Collagen and Actopuntine.
