

Not only do we make the supplements! We make the supplements Better.

RASPBERRY KEATON SLIM - LEAN

90 CT & 60CT

WHAT IS RASPBERRY KEATON SLIM-LEAN?

Raspberries have been used throughout history as a supplement as well as in many medicines. Raspberries are known to be high in antioxidants, which help to keep the body functioning properly despite the advances of age. Raspberries have also been thought to help relax the blood vessels, which can help to avoid heart problems and other disorders.

Raspberry ketone is a natural phenolic compound that is responsible for the heavenly aroma of red raspberries. Scientists have shown that pungent compounds with similar chemical structures, such as capsaicin and synephrine, have lipolytic properties – causing fat breakdown. The more effective breakdown of fat in your cells helps your body burn fat faster.

Raspberry ketone probably works directly via the hormone-sensitive enzyme lipase. This enzyme is activated via the beta-adrenergic receptors. Researchers have shown that, as a result of raspberry ketone, more hormone-sensitive lipase goes to the vesicles in which the fat cells store their fatty acids. Hormone-sensitive lipase gets fat cells to mobilize and excrete fatty acids.

Raspberry Ketone has also been shown to increase the secretion of adiponectin. This is important because adiponectin is a protein hormone that modulates a number of metabolic processes. Past research into adiponectin has shown that your levels of adiponectin are inversely correlated with your body fat percentage.

And if weight loss isn't enough, higher levels of adiponectin have been shown to control the metabolic derangements that may result from type 2 diabetes, obesity, atherosclerosis, non-alcoholic fatty liver disease, and metabolic syndrome.

As a result, researchers have concluded that Raspberry Ketone "holds great promise as a fat-burning, health-improving herbal medicine."

Raspberry Ketone is not to be confused with blood ketones produced in ketoacidosis due to diabetes or a very low carbohydrate diet.

Suggested Use

90 ct - As a dietary supplement, take two (2) capsules with food once a day, or as directed by a healthcare professional.

60 ct - As a dietary supplement, take one (1) capsule on empty stomach once a day, or as directed by a healthcare professional.

KEEP OUT OF REACH OF CHILDREN

WARNING: If you are pregnant, nursing, taking any medications or planning any medical procedure, consult your doctor before use. Discontinue use and consult a doctor if any adverse reactions occur.

Supplement Facts

Serving Size: Two (2) Vegi Capsules
Serving per container: 45

Amount Per Serving		%DV†
Raspberry Ketone Extract	414.4 mg	†
Green Tea Extract	82.8 mg	†
Kelp	41.6 mg	†
White Kidney Bean Extract	356.2 mg	†
Red Raspberry Extract	182.2 mg	†
Coleus forskohlii 10:1 Extract	82.8 mg	†

† Daily Value Not Established

Other Ingredients: Hypromellose (derived from cellulose) Capsule

Supplement Facts

Serving Size: One (1) Vegi Capsules
Serving per container: 60

Amount Per Serving		%DV†
Raspberry Ketone Extract	500 mg	†
Red Raspberry Extract	50 mg	†

† Daily Value Not Established

Other Ingredients: Hypromellose (derived from cellulose) Capsule
