FOREWORD

Technology is changing rapidly in our industry and the GBCT takes pride in its members' ability to be at the forefront of innovation as well as having a fundamental grounding in the traditional arts and practices of cinematography. Whether a feature film, TV drama or commercial chooses to shoot on film or digital, the GBCT has the technicians you will want on your production, because the GBCT and its members are at the cutting edge of our art with training courses and seminars provided by the best of our talent. It's a resource unparalleled in our business.

We are proud to bring you this handy, pocket sized, Crew Directory: the quickest way to access the best camera technicians, script supervisors and specialists in aerial, underwater, VFX, 3D and digital cinematography. This book will give you a direct way to contact the world's foremost camera crews, or you can contact the GBCT office at any time, day or night, to be given access to our technicians.

We are the ultimate and essential One-Stop Shop - open 24hrs - for anyone looking for crews of the highest quality.

**Tim Potter, Chairman
GBCT**

Close links have been formed with major organisations within the industry and we are extremely proud of, and grateful to, all our Patrons for their advice and generosity in consistently supporting us.

CONSTITUTION OF THE GUILD of BRITISH CAMERA TECHNICIANS

1. The name of the organization will be the GUILD OF BRITISH CAMERA TECHNICIANS (gbct).
2. The objects of the Guild are three-fold:
 - 2.1 To ensure that the value of camera technicians is recognised not only by members of the moving picture industries but also by Government and members of the general public.
 - 2.2 To promote and provide the means whereby members may meet socially and professionally with other members of the Guild as well as other bodies and individuals whose interests are allied to that of moving picture imaging.
 - 2.3 To further the standards of professional conduct and achievement by the members (of the Guild) and thereby inspire and encourage new membership.
3. The Guild will not concern itself with bargaining for labour benefits with employer associations and shall not in any way impinge upon or interfere with the relationship between its members and any recognised trade union to which they may belong.
4. The affairs of the Guild will be managed by an elected Board of between seven and fifteen governors. Governors shall be elected at the Annual General Meeting. The four Governors who have served the longest since last elected shall, by system of rota, resign each year and may stand for re-election. Members are entitled to nominate any number of candidates provided that the proposer is able to warrant the candidate's willingness to stand for election to the Board. The Board of Governors shall elect from amongst its members a Chairperson, two Vice-Chairpersons, and any other officers that it deems necessary, by ballot or show of hands, at the first Board meeting after the Annual General Meeting or at any period to fill a casual vacancy. The Board of Governors shall appoint an Honorary Treasurer.
5. Regular meetings of the Board will be held, with a minimum of six in any financial year, and the quorum will be four members, one of whom must be an officer of the Board.
6. The Board will have sole control of the affairs and funds of the Guild and it will have the power to co-opt members onto the Board or its sub-committees to assist in the discharge of its duties. Co-opted members of the Board of Governors shall serve in office until the next Annual General Meeting and may stand for re-election under Clause 4. An emergency meeting of the general membership may be called by a petition presented to the Board, signed by not less than thirty full members. The petition must contain full details of the matter that members want discussed and the quorum for such a meeting will be thirty. A period of no more than 21 days must elapse between the petition being presented and the meeting occurring.
- 7.1 Entry to the Guild will be limited to those members of the motion picture industry whose work brings them into direct contact with motion picture cameras or otherwise to such persons whose work in the opinion of the Board is so closely aligned to the work of Guild members as to merit membership of the Guild.
- 7.2 An applicant for membership must be sponsored by at least four Guild members they have worked with, or have three member sponsors and a Guild Board recognised workplace assessed qualification – all of which will be at the discretion of the Board.
- 7.3 An entry fee and subscription will be payable in advance of an applicant becoming a member, but only after they have been invited to join. The level of entry fee and annual subscription will be decided upon by the Board and revised on a bi-annual basis.

8. Evidence as to the status and ability of an applicant may be requested by the Board or its sub-committee and their decision is final. Applications to the Guild will take the form of a "request to invite" and no applicant will have the right of membership. Membership will be limited to those applicants who the Board feels will benefit the Guild and support its aims and, in this regard, the Board shall from time to time establish guidelines upon which all individual applications will be considered.
9. The Board of Governors will constitute a disciplinary committee and will examine matters brought to its attention relating to the conduct of the Guild members. Individuals will have the right to attend all meetings where their case is being heard. Suspension or expulsion of a member from the Guild will be ratified by a two-thirds majority at a General Meeting called for that matter alone or in the normal course of any other General Meeting. Lapsing of a member will normally occur automatically three months after his subscription fell due. Members with financial difficulties may apply for dispensation from the Board, providing that they do so within the three-month period.
10. The Annual General Meeting of the Guild will be held as soon as practicable after the Annual Accounts have been prepared, and within a period of not more than fifteen months after the holding of the last preceding General Meeting. Voting on any matter at the meeting including the election of Board members will be by show of hands unless a third of the membership present requests a ballot. Members unable to attend any such meeting will be entitled to vote by proxy, but such members must provide a written authorisation for another member to exercise this right on their behalf. No member may exercise more than four proxy votes on behalf of other members. Nomination for the Board members should be ideally received by the Board at least seven days before the Annual General Meeting, but nominations will be accepted at the meeting itself provided the nominee is present or has signed in writing their willingness to stand.
11. Any amendments to this Constitution can only be made at a meeting where such amendments appear on the agenda and which has been convened under rule. The quorum for any such meeting where amendments are discussed will be forty-one full members and acceptance of any amendment will require the vote of two-thirds of those members present in its favour.
12. The dissolution of the Guild can be brought about by a two-thirds majority at a specially convened General Meeting of the membership. The quorum for such a meeting will be forty-one full members. In the event of dissolution the assets or liabilities of the Guild will be divided amongst the existing members who by acceptance of these rules undertakes to honour any commitments that such dissolution would incur. In the event of such a General Meeting being unable to obtain a quorum at three successive meetings the Chairman is empowered to declare the Guild dissolved providing that it is financially in credit.
13. The function of the Trustees will be as custodians of the Constitution and as such They will be the final arbiters in any dispute concerning the interpretation of the said Constitution. The minimum number of Trustees will be 3 with a maximum of 7 Trustees at any one time. Trustees are appointed by the Board with the approval of the existing Trustees and then formally welcomed by the Membership at the next GBCT Annual General Meeting. Re-election formalities will then take place on an annual basis. A Member of the Guild can be elected to the post of Trustee but s/he may not, at the same time, be a Member of the Board or be involved with any of its business.

Dated this 25th day of April 2015 and signed by:

TIMOTHY POTTER • CHAIRMAN

-and-

SARAH HAYWARD • VICE CHAIR

GBCT TRAINING AND EVENTS

GBCT TRUSTEES

The GBCT opened its doors and began operating towards the end of 1977. Limited by Guarantee, the Company has a Constitution that is relevant, fair and updated to correspond with emerging technologies.

The Constitution is carefully monitored by 6 eminent film makers who are the GBCT's Trustees:

Michael Apted (a GBCT Trustee from 2011)

IMDB: <http://www.imdb.com/name/nm0000776/>

Steve Clark-Hall (a GBCT Trustee from 2011)

IMDB: <http://www.imdb.com/name/nm0164626/>

Richard Lester (one of our original Trustees from 1977)

IMDB: <http://www.imdb.com/name/nm0504513/>

Phil Méheux BSC (a GBCT Trustee from 2016)

IMDB: <http://www.imdb.com/name/nm005793/>

Joe Wright (a GBCT Trustee from 2011)

IMDB: <http://www.imdb.com/name/nm0942504/>

Sir Sydney Samuelson CBE (our Founding Trustee – proactive since 1977)

IMDB: <http://www.imdb.com/name/nm0760567/>

It is important to point out that without Sir Sydney's help and ongoing support, the GBCT would not have been able to survive. When we were first formed in 1977, he gave us a home in the Sammy's offices and was generous with his administrative support. When Sammy's retrenched their business and moved to new premises in the early 1990's he oversaw the move of the Guild to a sister company at Grip House. They provided us with a base until they were amalgamated into Panavision UK (where we have an excellent home to this day). All this has enabled the GBCT to be located at the heart of the camera world for all its existence. In his role as founding GBCT Trustee, Sir Sydney has lived up to the full meaning of Patron in his fatherly oversight of all our history and business.

The Guild is very lucky to have the support and help of these talented and dedicated people.

PAST TRUSTEES (Deeply missed)

The Right Honourable Lord Attenborough CBE: 29 August 1923 – 24 August 2014

Actor, Director, Producer, Entrepreneur

IMDB: <http://www.imdb.com/name/nm0760567/>

Richard Attenborough was the third of the GBCT's founding trustees in 1977 and remained a much respected supporter of the Guild until his death.

Sue Gibson BSC: 1952 - 27 July 2016

IMDB: <http://www.imdb.com/name/nm0317189/>

Award-winning cinematographer Sue was the first female to be invited to become a member of the British Society of Cinematographers (BSC). She then went on to become its first female President, serving between 2008 and 2010.

WHO WE ARE AND WHAT WE DO

The GBCT is not a union but a not-for-profit professional association of knowledgeable, qualified and craft trained camera technicians. We are dedicated to upholding quality and standards in the film, television and related media industries.

The Guild began when four technicians – Terry Cole (1AC), John Deaton (1AC), Mike Fox (Camera Operator) and Geoff Glover (Camera Operator) invited all the camera technicians they knew to attend a meeting at the old Caernarvon Hotel, Ealing Common, in 1977. They wanted to form a non-political association that essentially protected the interests and aspirations of a growing freelance workforce. To do this they aimed to maintain the best and highest standards for camera technicians to work to, to help develop talent for future success – and therefore to become an authoritative presence in the film, television and related media industries. Forty years later, Guild Members are renowned throughout the world for their knowledge and technician as well as aesthetic ability.

The GBCT is run by a Management Board which consists of experienced and reputable working technicians. At the Guild's AGM, and per its Constitution, the Membership votes for existing Board Members whose term it is to stand down for re-election or for Members who want to join the Board.

The current GBCT Management Board is:

Chair	Tim Potter	1st AC/Focus Puller
Board Member	Richard Bradbury	1st AC/Focus Puller
Board Member	Emmet Cahill	Key Grip
Board Member	Rana Darwish	Camera Assistant
Board Member and Vice Chair (1)	Sarah Hayward	Script Supervisor
Board Member	Gabriel Hyman	1st AC/Focus Puller
Board Member	Callum Just	DIT
Board Member	Paul Lang	Director of Photography
Board Member	Julian Morson	Camera Operator
Board Member	Mickey Richards	Video Assist Supervisor
Board Member and Hon. Treasurer	Hilda Sealy	1st AC/Focus Puller
Board Member	Katie Swain	Director of Photography
Board Member and Vice Chair (2)	David Worley	Camera Operator
Treasurer	Martin Cook PGGB	Production Accountant

The GBCT's Management Board has had a simple and effective three-point plan to secure the Guild's future success:

- (1) Continue evolving as an organization to improve efficiency and productivity which includes widening the Guild's business opportunities
- (2) Enhance the GBCT's reputation in the global media industry by being one of the leading technical authorities in the craft of cinematography
- (3) Provide its Membership with more cost-effective benefits that represent additional value for money for their annual subscriptions

All this will provide a financially stable and secure structure for the Guild to move forward successfully for the future.

A few of the 'Things We Do'

- Provide a framework for our Members to be able to successfully develop their careers
- Advise, support and guide Members – as requested/required
- Provide a variety of 'GBCT Member Benefits' to add value for members
- Keep up to date information on technological advancements, camera data and changes in industry working practices to inform our Members of developments across the board
- Provide a variety of training courses for members and non-members alike as part of their continuing professional development. Training is conducted wherever and whenever it is required, with Guild Members who are current and respected practitioners as well as trained trainers
- Trainee Schemes – for Camera plus links with the Script Supervisors Group for Trainee Continuity/Script Supervisors and the Grips Branch for Trainee Grips
- Whenever possible, attend trade shows and exhibitions to promote the GBCT and its membership
- Work with Creative Skillsset and as many other organisations as is practical to develop and update the National Occupational Standards (NOS) and the UAL (University of the Arts London) Diploma Qualifications for camera technicians, digital technicians and script supervisors
- To be part of any debates and discussions on technological changes, to protect the interests of members at national and international levels and to keep up to date with industry developments across the board, the GBCT is a member of the British Camera Standards Council, the Moving Image Training Alliance, Screen Craft Rights and has close links with Imago (European Federation of Cinematographers) – amongst others
- Work alongside industry organisations, including the British Society of Cinematographers (BSC) and the Guild of Television Cameramen (GTC), to ensure the needs of the camera department are met and acted upon in order that the high standards of production are met and surpassed

These are just a few of the things we do – if you would like to know more, just ask!

GUILD MEMBERSHIP

Guild Members are known throughout the world for being “The Best of the Best” – because they know what they are doing and can always be relied on to deliver what is required. To become a member of the GBCT, you need to be a properly trained technician – with a good eye for the aesthetic!

There are very few ‘rules’ on how to become a member, but there is a tough selection process prior to anyone being invited to join – and various ways to go about applying. An invitation to join the Guild is always at the discretion of the GBCT Board and not only includes completing an application form and providing a full and up-to-date copy of your CV. An applicant also has to:

1. Get 4 Guild Members they have worked with regularly or on at least one long job to provide a written reference; OR
2. Have 3 Guild Members and 1 BSC Member they’ve worked with to provide references; OR
3. Provide a recognised formal vocational Diploma to prove experience and competence + have 3 GBCT Member references OR the Diploma + 2 GBCT references and 1 BSC Member reference

Once the application has been checked, it is then vetted by a specially convened Membership Committee made up of at least one Board Member and members who are in the same grade as the applicant. After the Membership Committee has made its decision, the application is passed onto the Board who discuss and approve (or provide reasons why approval has been postponed). The successful applicant is then invited to join the Guild.

There are 6 different categories for individual Guild Membership:

FULL

This category is specifically for current practitioners living in the UK and Eire

OVERSEAS MEMBERSHIP

This category is open to British technicians resident outside the UK, or non-British technicians who work regularly in the UK

ASSOCIATES

Associate Members are individuals closely affiliated to the GBCT and its activities

TRAINEES

Membership services and facilities are provided to all Guild Trainees for the duration of their time as Trainees

RETIRED MEMBERS

This section is only available to existing Guild Members

HONORARY

Honorary Membership is awarded to certain individuals who have been instrumental in helping to support the Guild in some form or other and/or by enhancing its standing within the industry

movietech[☀]

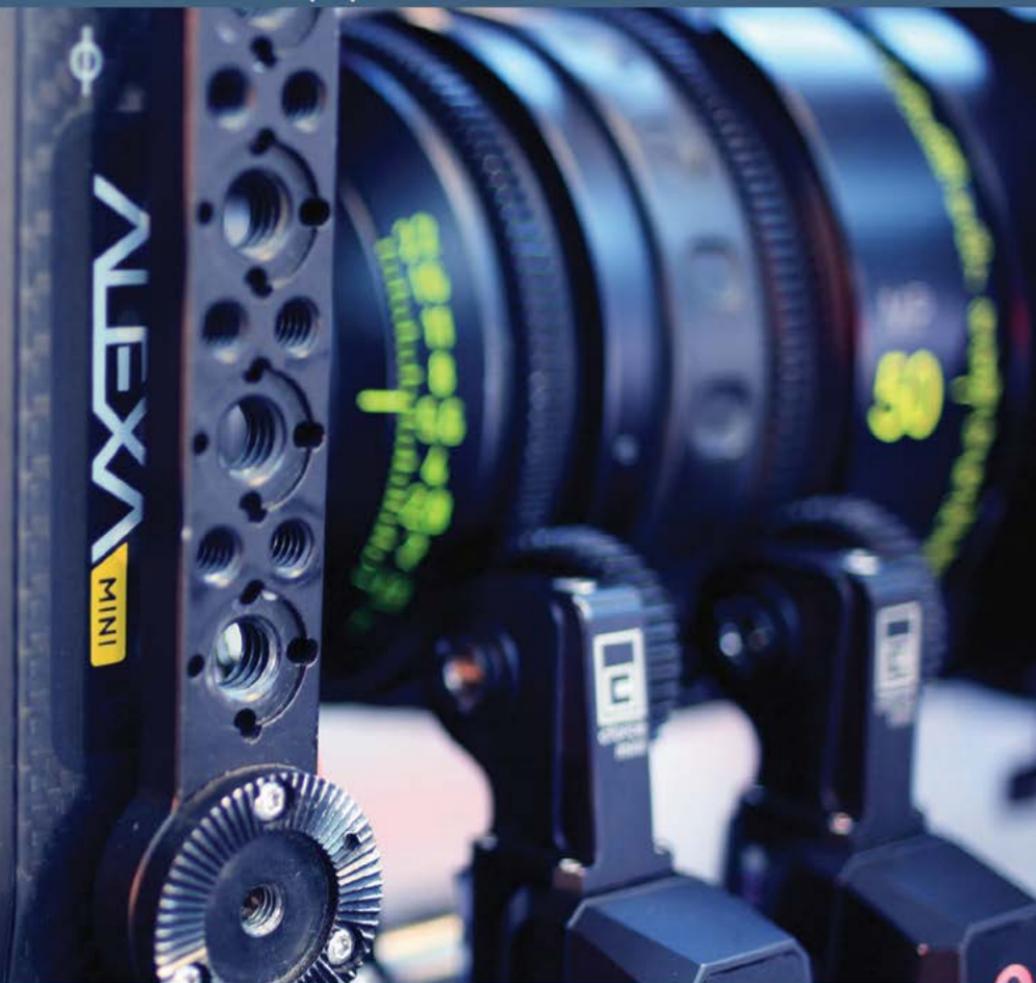

Creative, independent providers of professional image capture solutions and quality engineered production equipment for the film, tv and commercials industries.

THE GUILD OF BRITISH CAMERA TECHNICIANS

Pure Creativity.

Vision. Control. Freedom.

The versatility of the SkyPanel family in combination with new firmware features and a wide range of accessories brings your artistic vision into focus. SkyPanel's LED technology pushes the boundaries of what is creatively possible and allows for new and fantastic applications. The immense control options built into every SkyPanel provides the tool set needed to save time on set and gives you the freedom required during the creative process.

Ronford-Baker

CAMERA SUPPORT TECHNOLOGY

Atlas Range of Fluid Heads

The "Atlas" is a completely new design head, with a patented counterbalance system. Incorporating the well proven Ronford-Baker fluid system giving unprecedented smoothness and accuracy of control and balance in all situations.

Atlas Balanced Fluid Head

- For camera packages up to 50 kg (110 lbs)
@ 30 cm (12") above pivotal centre
- 15 stages of fluid power on both pan and tilt, plus true 'zero' fluid (free) positions
- Infinitely variable, progressive action, counterbalance with single knob control
- 180 degrees of tilt operation
(+/- 90 from horizontal)

Atlas 40 Balanced Fluid Head

- For camera packages up to 30 kg
@ 25 cm (10") above pivotal centre
- 7 stages of fluid power on both pan and tilt, plus true 'zero' fluid (free) positions
- Infinitely variable, progressive action, counterbalance with single knob control
- 180 degrees of tilt operation
(+/- 90 from horizontal)

KEY GRIPS, GRIPS & CRANE TECHNICIANS

Key Grips and Grips have to be aware of, and responsible for, a considerable number of Health and Safety issues on a production. This has been acknowledged by Skillset through the provision of a Skills Passport where NVQ's are undertaken. This "passport" (the size of a photo credit card) lists the knowledge and skills required to take NVQ City & Guilds qualifications.

For Key Grips this is at Advanced Level 3; for Grips this is at Level 2. Likewise, Crane Technicians also have to be qualified at Level 2.

■ DAVID APPLEBY

M: 07973 141360

GAFFERS AND ELECTRICIANS

Growing numbers of electricians have obtained a variety of qualifications to demonstrate the high skill levels and knowledge required to do their jobs. Building on this, key organizations and individuals in the industry are working together to provide a few basic ground rules that will help validate an individual's level of experience and ability.

Work is ongoing, but it is envisaged that these qualifications will be cross referenced with BS7909 plus cover training and diplomas for everyone working in the lighting department.

Further information and updates are available via the BECTU website.

THE RIGHT FEEL

TRAINEES GUILD CAMERA TRAINEES

GBCT Camera Trainees go through an extremely tough and competitive selection process in order to be selected. For example, their application forms are sifted by Guild members who choose those to be interviewed. Those selected are then interviewed by another group of Guild members who form the interview panel. From the interviews, between 12 and 14 people are invited to attend a specially designed 6-day course for trainees. This is taught by yet another group of Guild members. On the final day of the course, the trainees go through an assessment process and receive verbal, written and practical tests which are observed by the final group of Guild members. Then it's decision time. All the Guild members involved get together and discuss the trainees' progress throughout. Finally, 6-7 people are then selected. Depending on how many productions they are able to work on and gain experience, a trainee can expect to spend between 18-24 months before moving on.

THE NEXT INTAKE WILL BE JANUARY 2019 WITH THE TRAINEES BEING SELECTED IN LATE 2018

2017 INTAKE ALL TRAINEES ARE LONDON-BASED

FOR INFORMATION

Virtually all Guild trainees from previous intakes are successfully working in the Camera Department in different parts of the country – on television series, dramas, commercials and features.

This is something we are very proud of.

Ronford-Baker

CAMERA SUPPORT TECHNOLOGY

Atlas Range of Fluid Heads

The "Atlas" is a completely new design head, with a patented counterbalance system. Incorporating the well proven Ronford-Baker fluid system giving unprecedented smoothness and accuracy of control and balance in all situations.

Atlas Balanced Fluid Head

- For camera packages up to 50 kg (110 lbs)
@ 30 cm (12") above pivotal centre
- 15 stages of fluid power on both pan and tilt, plus true 'zero' fluid (free) positions
- Infinitely variable, progressive action, counterbalance with single knob control
- 180 degrees of tilt operation
(+/- 90 from horizontal)

Atlas 40 Balanced Fluid Head

- For camera packages up to 30 kg
@ 25 cm (10") above pivotal centre
- 7 stages of fluid power on both pan and tilt, plus true 'zero' fluid (free) positions
- Infinitely variable, progressive action, counterbalance with single knob control
- 180 degrees of tilt operation
(+/- 90 from horizontal)

Provides equipment and technicians

IMDB: <http://www.imdb.com/name/nm0760542/>

Louma Cranes are known throughout the world as the original and most versatile remote camera cranes used in the film and television industry. This was acknowledged in 2005, when the Louma Crane inventors were awarded an OSCAR® statuette by the Academy of Motion Picture Arts and Sciences with the following words:

“To Jean-Marie Lavalou, Alain Masseron and David Samuelson for the engineering and development of the Louma Camera Crane and remote system for motion picture production Its design has proved to be the inspiration for numerous subsequent remote camera systems.”

Because of his enormous experience and knowledge of the crane system, GBCT Member Adam Samuelson has over the years consistently contributed to the updates and improvements that have helped the Louma Crane to evolve successfully.

AFFILIATE MEMBERS

Affiliate Members are organizations that are linked to the GBCT and its activities

INSTITUTE OF PROFESSIONAL SOUND

(T) 0300 400 8427

(E) secretariat@ips.org.uk

(W) www.ips.org.uk

The Institute of Professional Sound (IPS) has become an important forum for all audio professionals and provides a quality benchmark of knowledge and training in an ever-evolving industry. IPS members work in every facet of the business of recording sound including all forms of acquisition, post and sound engineering for film, television, radio, theatre, music, computer games, internet, live sound and web audio. In addition, the IPS also heads up industry initiatives to maintain high standards in audio production as well as lobbies Government departments to ensure that the radio frequency and monitoring standards are maintained throughout all digital switchovers.

ACCOMMODATION

■ ACCESS BOOKINGS

T: 01543 272575

E: contactus@accessbookings.com

W: www.accessbookings.com

Our philosophy is a simple one: the best service, the best value, 24/7 365 days each year. Need a B&B for a few nights for a shoot in the back of beyond? Or maybe a prestigious apartment for 6 months! Nothing is a problem as we've probably got a list of great options on our specialist accommodation database.

■ TSC HOTELS & VENUES

T: 01335 345655

E: hotels@tschotels.co.uk

W: www.tschotels.co.uk

Experts in Cast and Crew travel and accommodation nationally and internationally. Our reputation is to efficiently deliver what you want at the same time as save you time and money.

MILLER

THE RIGHT FEEL

■ **MILLER**

Unit 12A, Shepperton Business Park, Govett
Avenue, Shepperton, Middlesex, TW17 8BA

T: +44 1932 222 888

F: +44 1932 222 211

E: sales@millertripods-europe.com

W: www.millertripods.com

Founded in 1954, Miller Camera Support Equipment designs, manufactures and delivers professional fluid heads and tripods to the film and television industry, providing support for the world's leading camera operators. Celebrating more than sixty years in the industry, Miller is a long time, global leader in the field of contemporary camera support and holds the first patent for fluid head design for film cameras, which it obtained in 1946. Today, Miller's tripod and camera support systems are frequently used during electronic news gatherings (ENG), electronic field production (EFP), and digital video applications by the world's leading networks, production houses, corporate, educational and government institutions in more than 65 countries.

■ **PANAVISION UK**

T: 020 8839 7333

E: hugh.whittaker@panavision.co.uk

W: www.panavision.co.uk

Contact: Hugh Whittaker

For over 60 years, Panavision has been the foremost designer and manufacturer of high-precision lenses, advanced digital and film camera systems, and unique, modular accessories for the motion picture and television industries. Renowned for its global service and support, Panavision systems are rented through its domestic and internationally owned-and-operated facilities and distributor network.

PRODUCTION FACILITIES AND SERVICES

PICTURE CANNING NORTH

T: 0191 265 0061
